Re: Single Storey Extension to the Rear of Mid-Terrace House

To whom it may concern,

I was architect for a single storey extension along with refurbishment to a mid-terrace house for which Amazon Developments were appointed Contractors in 2010.

I found Amazon Developments to be a responsive and pro-active contractor who provided good value for money.

They carried out the Works with all due diligence and when issues were encountered on site they dealt with them in an enthusiastic and appropriate manner.

I had a positive experience working with Amazon Developments on this project.

Yours faithfully,

Peter Thompson
