RE: AMAZON DEVELOPMENTS

Ferreira Architecture has worked with Amazon Developments on several projects over the past 4 years. Through-out each of the projects we found Amazon Developments to be very professional and enthusiastic in their approach to the various jobs.

All works were completed on schedule and within budget. Communication throughout each project was very good and we found Amazon Developments were never claim cautious.

We would have no hesitation in recommending Amazon Developments and we look forward to working with them again in the future.

Yours faithfully,

FERREIRA ARCHITECTURE
